

Lisa Lotte Fokkinga.

Frontend development

Design

Hi, I'm Lisa Lotte Fokkinga, a 26-year-old student at Hogeschool van Amsterdam. I'm currently in my fourth year of Communication and Multimedia Design. My focus lies in web design and development.

I describe myself as creative, curious, patient, empathetic, social, and driven. I prioritize both the quality of work and effective presentation, always striving to create something beautiful. I place a strong emphasis on personal development, as well as equality and freedom of speech.

HOBBIES & INTERESTS

- Gaming
- Traveling
- Exploring

WORK EXPERIENCES

- April 2021 - Present
Easyway
Hiker
As a Hiker at Easyway, I am responsible for transportation of vehicles. I prioritize ensuring safe deliveries while upholding a social and formal approach in client interactions. I have maintained an incident-free record, actively enhancing the company's reputation for reliability and safety.
- Oktober 2019 - June 2020
Studentaanhuis
Computerstudent
As a Computer student at Student aan huis, I try to help individuals navigate and resolve their computer issues. I bring a patient and solution-driven approach to troubleshooting. This position has not only allowed me to refine my technical skills but has also contributed to creating a positive and supportive tech environment.

INTERNSHIPS

- September 2024 - January 2025
Pluxbox
Frontender (& design)
During my 20-week internship at Pluxbox, I worked on both the company website and a custom headless CMS. Using 11ty in combination with Nunjucks, I built data-driven pages based on dynamic content from the CMS. This experience strengthened my frontend skills and deepened my interest in developing flexible, content-rich websites.
- April 2023 - June 2023
FBI Digital
Frontend & UX design
During my internship, I got the hang of presenting designs and found my way in working with diverse teams. I'm quick to pick up new concepts, but I'm working on expressing my design choices better. It solidified my love for both Design and frontend development, and I'm excited about growing flexibly in the digital design scene.
